### **Comparing the rise and fall of empires (article) | Khan ...**

An empire is a political construct in which one state dominates over another state, or a series of states. At its heart, an empire is ruled by an emperor, even though many states in history without an emperor at their head are called "empires". At its core, an empire is the domination of one state by another.

### **Empire - Ancient History Encyclopedia**

One of the differences between the Roman Republic and the Roman Empire that followed it was the former republic's inability to manage the huge amount of territory that it had acquired. The Roman Empire, however, was able to control Rome's holdings, and remained more effective at stifling civil unrest.
