Natural Nutrition for Dogs and Cats: The Ultimate Diet ...

As obligate carnivores, cats need: Protein from meat or fish. Amino acids like taurine and arginine (from meat or fish). Fatty acids.

Homemade Cat Food and Raw Cat Food - WebMD

Feline Natural Raw Food Diet Dr. Pottenger discovered quite by accident that cats degenerated unless they were fed raw food. In his 10-year study of 900 cats, he found the optimal diet for his cats was 2/3 raw meat and 1/3 raw milk plus a little cod liver oil. If either the meat or the milk was cooked, the cats degenerated.

Holistic Cat Care and Natural Remedies

Additional yeast, kelp, lecithin, calcium,

and vitamin C can provide all the extra natural elements (vitamins, minerals, and trace elements) found in a natural live prey diet. It is important to remember that cats do ingest grass and other green matter as part of their natural diet, so this must be accounted for also, in the form of vegetables and wheat grass.

Natural Cat Nutrition - Vets All Natural

A wild cat's diet is based on meat and fish, although it's true that they also receive certain amounts of vegetables through their prey. This explains why the best diet for domestic cats should contain 26% protein and 40% fat. There are many products on the market that do not meet these percentages,...

What is the Best Diet for Cats? - Animal Wised

The good news is that there are many treatment options available to our hyperthyroid cats. These include an

iodine-restricted diet, medications, and radioactive iodine therapy. The treatment you and your vet choose depends on several factors including how severe the disease is, your cat's health, and what works best for your family.

Managing Hyperthyroidism with Diet in Cats - Clinical ...

Cats don't actually need vegetables and carbohydrates in their diets. In fact, they can only tolerate carbohydrates in small amounts. Instead, cats thrive on high-protein, high-moisture diets that are rich in substances only found in meat. This includes amino acids such as taurine, fatty acids, and other essential vitamins and minerals.

Should You Feed Your Cat a Raw Diet?

If you think about the natural instinctual cat food diet, it is raw food - birds, mice and other small rodents. Cats are carnivores and therefore, should be fed

Their proteins come from sources including meat, organ, raw bone, and regional-specific green-lipped mussels. More than 90% of their food are animal-based, making this as close as possible to a cat's evolutionary diet. The rest of the cat food is supplemented with vitamin-rich, low glycemic carbohydrates including herbs and kelp.
